

The Learning Environment

At St Alphege C of E Infant School we strive to provide a caring, fun and supportive learning environment, in which every child and their family; really do matter.

We strive to coordinate a fully 'joined up' provision, where all children, regardless of their starting point, reach their full potential.

We teach children to respect, accept and value their classmates and adults in our rich school community and in their lives outside school by being role models.

We want children to enjoy their time at school and will endeavour to create an exciting yet secure learning climate in which they feel cared for and valued by developing the children's independence, confidence and ability to make decisions for themselves.

We aim to ensure our school community feels safe in a welcoming and friendly environment. We feel that it is important that parents, teachers and Governors work alongside each other to help and support one another in the development of each and every child to fulfil their potential to be successful in...

"Learning to live ... loving to learn."
