

## Whole School Magical Task - Term 1

As you are aware, this year we are focussing on STARS as our school acronym. The entrance hall has been transformed, but we feel the hall is now in need of some sparkle!

We would like to ask you all to create a hanging star with your child. These will need to be quite large as they will be strung from the wires on the hall ceiling! We suggest using a hoop, a tree branch or a wire coat hanger as a base to hang your 'starry' creations from. Don't forget to name them if you would like them back!

We will open the hall up so that you can see them all at the end of the term.

We know that you are all a wonderfully creative bunch, so we look forward to seeing them all! The staff will all be making one too! Please bring your stars into school as soon as they are finished and no later than **Friday 11<sup>th</sup> October**. Have fun creating them!
